We are pleased to present the ASSET Teacher MyBook, a comprehensive resource designed to provide you with valuable insights into your students performance and support their academic growth. This resource offers a range of features to help you better understand your students' strengths and areas for development.

Personalized Teacher Feedback: Gain tailored insights into your students' distinctive strengths and areas for development. This feedback is aimed at assisting you in providing targeted guidance to each student.
Student Performance Table: Delve into the individual question-wise performances of your students. This data-driven view will aid you in identifying specific areas where students may require additional support.
Bird's Eye View: Acquire a holistic comparison of your students' performance against the national average. This perspective will help you contextualize your students' achievements and progress.
Year on Year Analysis - Previous Batch: This report compares student performance over a year.It compares the performance of a specific class compared to the previous year.
Skill-based Summary: Explore a tabulated display of students' skill proficiency, emphasizing the skills with the highest and lowest performance. This summary enables you to gauge skill performance relative to the school and national average.
Analysis of Easy/Difficult Questions: Identify questions posing ease or challenge compared to the national norm. This section illuminates areas needing focused attention, allowing you to tailor your teaching approach accordingly.
Questions with Common Wrong Answer: This section highlights potential misconceptions through selected questions. It provides valuable insights into your students' performance within a broader nationwide context.
Practice Questions and Explanation: In the Student MyBook, students receive practice questions tailored to their needs. This Teacher MyBook also features practice questions customized for your class, complete with answers and explanations. Different practice approaches have been thoughtfully curated based on subject and skill requirements.

We recommend that you review this analysis with reference to the ASSET question paper. Your commitment to your students' growth is highly commendable, and we believe that the ASSET Teacher MyBook will further empower you in this journey.

Should you have any questions or require further assistance, please feel free to reach out to us at info@ei.study. We are dedicated to supporting your efforts in enhancing your students' learning experience.

Regards,
The ASSET Team

Kindly note: Some images may slightly appear unclear due to technical reasons, but rest assured, this is not an error.

Dear English Teacher,

Congratulations on receiving your students' ASSET test results!

ASSET helps us understand where your students excel and where they might need more support.

Let's celebrate the strengths your students have shown in English are:

Registers moods, tones and emotions
Understands the usage of grammar concepts

Great job nurturing these talents!

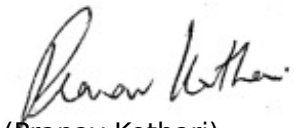
Now, let's look at areas where we can help them grow even more. Here's where they can improve in English :

Identifies the main idea and purpose of the passage
Analyses characters and situations

To assist you in this journey, we've created a special booklet. It's designed to focus on the questions/ skills that need a little boost. The booklet provides insights into each student's progress and highlights questions that sparked interest or posed a challenge.

Take your time going through the analysis to understand how each student is doing. You'll find different sections in the booklet to spot learning gaps and dive into specific questions that need attention. Your students have personalized booklets, called Student MyBooks, too. These are tailored to their needs, giving them a glimpse into the areas where they can practice more.

Feel free to use these resources in class, and let us know how it goes. We're here to help and learn from your experience. Share your thoughts with us at info@ei.study.As you guide your students through their learning journey, you're helping them become even better. Best of luck!



(Pranav Kothari)

The Bird's Eye View shows a comparison of the performance of your students with the national average performance.

Your class 8 C, has performed better than the national average in the English ASSET paper this year.

Class 8	English	No. of students
8A	120%	33
8B	118%	31
8C (Your Class)	122%	34
All sections combined	120%	98

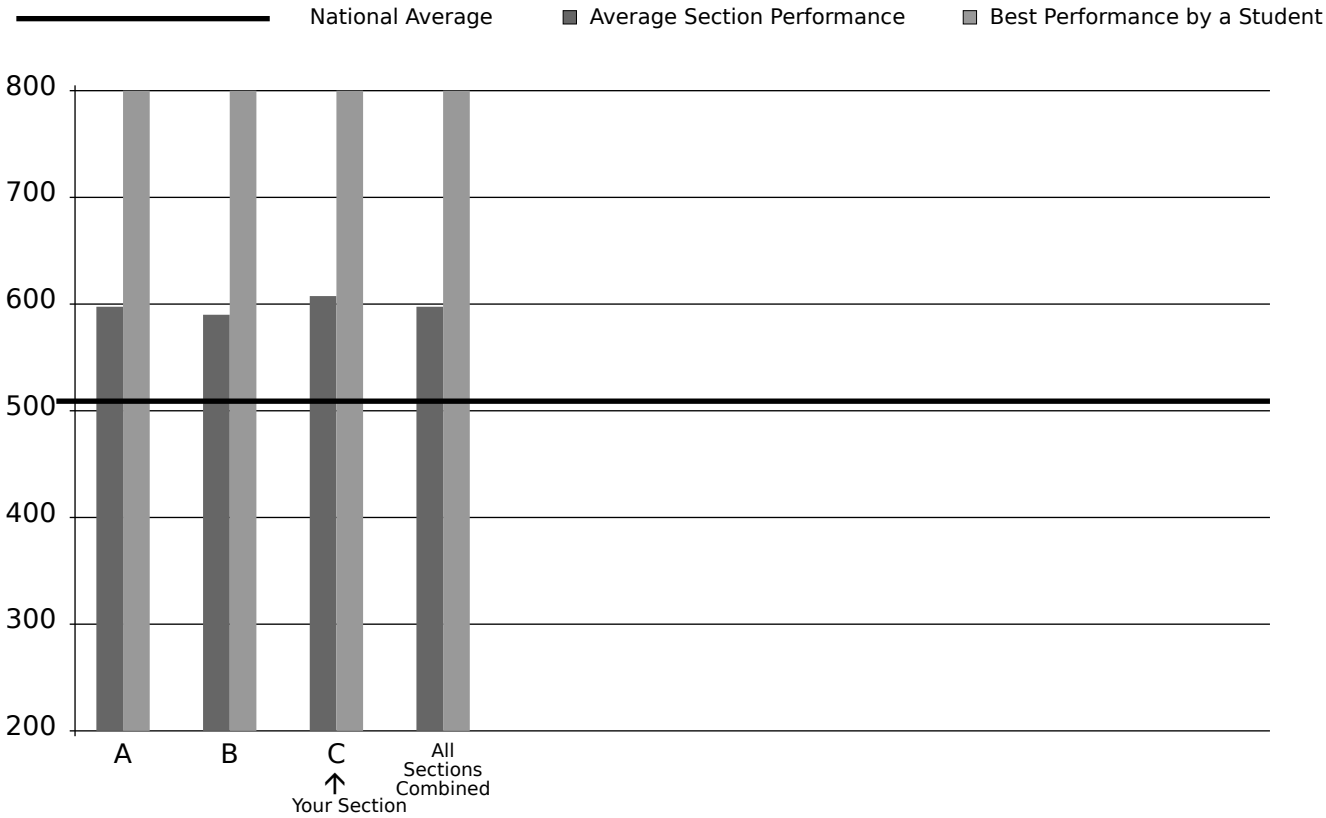
Performance as a percentage of National Average

Above Average(>105%) Below Average(<95%) Within Average(95% to 105%)

National average is taken as 100%. The value in the table indicate performance as compared to the national average.**E.g.** For a class average of 520 and overall average as 500, overall benchmarking %= (520/500)*100 = 104%. 95% to 105% is treated as similar to national average performance.Performance greater than 105% and below 95% is considered as performance above and below the national average range respectively.

Performance Data

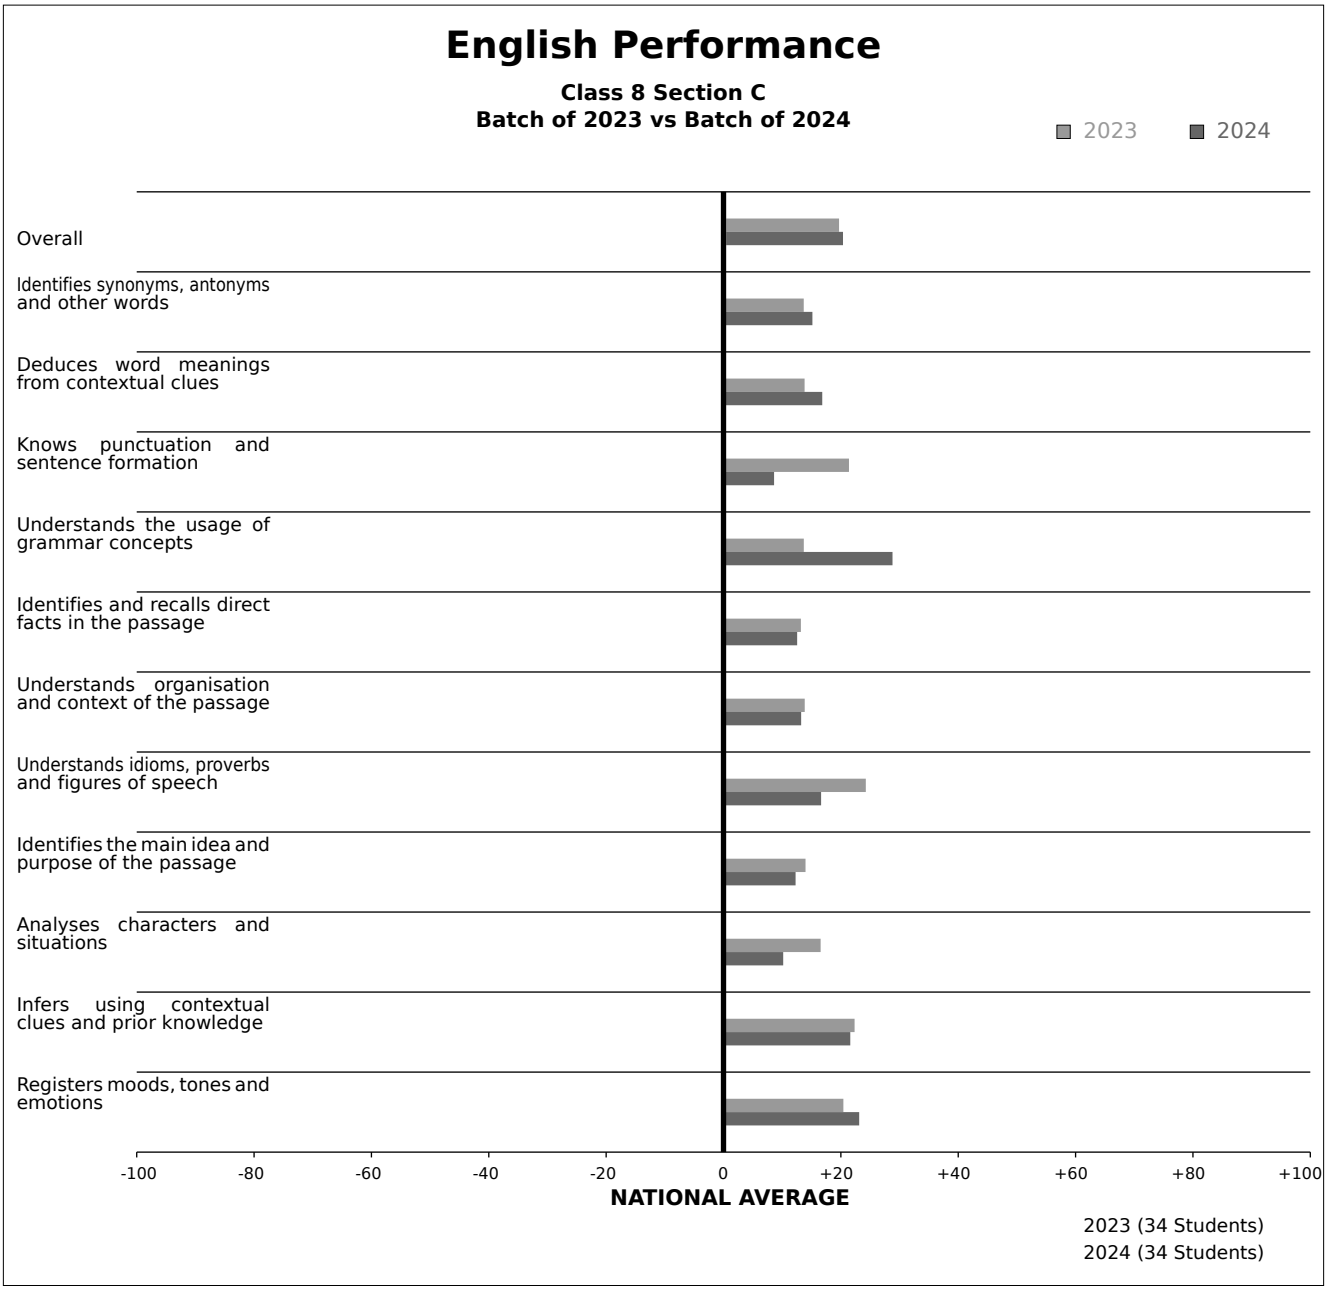
Comparison of section average and best performance with all schools in the country.



Comparison of performance of students of the current batch with the previous batch:

The following graph compares the performance of your current batch of students against the previous batch. The horizontal bars in the graph show how students of your class have fared against the national average in each skill across two years.

The thick black vertical line in the centre marks the national average.For example, a bar towards the right would mean that students performed higher than the national average that year in the particular skill.



This table shows how your students' performance compares to the overall school performance and the national average (all other schools in India). The skills with a '*' in the first column, if any, are those in which your students have performed better than the national average.

Class: 8 C Subject: English Number of Students: 34

S.No.	Skill	Questions	Class 8 C Performance	Class 8 Performance (School)	Class 8 Performance (National)
			Average	Average	Average
1*	Identifies synonyms, antonyms and other words	4,27,30,31,32,33,51,60	63.6%	62.5%	48.5%
2*	Deduces word meanings from contextual clues	5,34,35,36,46,48	69.1%	68.2%	52.3%
3*	Knows punctuation and sentence formation	38,49,53,54,55,58,59	59.7%	61.5%	51.0%
4*	Understands the usage of grammar concepts	39,40,41,42,43,44,50	76.9%	71.9%	48.1%
5*	Identifies and recalls direct facts in the passage	10,15,23	65.7%	71.8%	53.1%
6*	Understands organisation and context of the passage	2,8,17,19,21,28	58.3%	58.2%	45.1%
7*	Understands idioms, proverbs and figures of speech	12,13,37,52	69.9%	67.6%	53.2%
8*	Identifies the main idea and purpose of the passage	7,18,26,47	47.8%	47.4%	35.5%
9*	Analyses characters and situations	3,6,11,16,20,22,24	53.8%	56.6%	43.6%
10*	Infers using contextual clues and prior knowledge	14,25,29,45	74.3%	67.6%	52.7%
11*	Registers moods, tones and emotions	1,9,56,57	82.4%	76.3%	59.2%

Note - The average performance is calculated from the number of correct responses given by students to the questions constituting specific skills.

Strong skills		Weak skills	
1.	Registers moods, tones and emotions	1.	Identifies the main idea and purpose of the passage
2.	Understands the usage of grammar concepts	2.	Analyses characters and situations

This part of the report shows questions that the children of your class found easy and difficult. This information can be used by you to focus your attention to specific questions and skills. You can also use the student performance table to focus on individual students. (Please refer to the ASSET paper for the complete text of these questions.)

Questions which students of your school found the MOST DIFFICULT compared to the rest of the country:

Q 54 *Ayesha said, "My parents came to visit last weekend."*

Which of the following reports what Ayesha said?

A Ayesha said that her parents came to visit me last weekend.
B Ayesha said that her parents had come to visit me the last weekend
C Ayesha said that her parents came to visit her the previous weekend.
D Ayesha said that her parents had come to visit her the previous weekend.

Skill: Knows punctuation and sentence formation

QNo.	Paper Code	Correct Answer	% answered correct (your students)	% answered correct (all students)	Graph	
54	18224	D	41%	46%	Your School

From the questions that students across the country have found the most difficult, we have chosen a few to highlight potential misconceptions that students might have. For each question, we have given a break-up (in percentage form) of the number of students choosing a particular option. This has been done both for the section of your school and all the students nationally. Compare these to find out how your students have performed.

We have highlighted in light grey the correct option and in dark grey the most common wrong answer, and provided an explanation of why students are choosing the most common wrong option. It is recommended that you discuss these questions with the students to uncover students' rationale in choosing the most common wrong option. (Please refer to the ASSET paper for the complete text of these questions.)

Q 54 *Ayesha said, "My parents came to visit last weekend."*

Which of the following reports what Ayesha said?

A Ayesha said that her parents came to visit me last weekend.
B Ayesha said that her parents had come to visit me the last weekend
C Ayesha said that her parents came to visit her the previous weekend.
D Ayesha said that her parents had come to visit her the previous weekend.

The objective of this question is to test whether the students know sentence transformation. For the given question, option D is correct as it successfully transforms the given sentence correctly and grammatically. Option A is incorrect because in the reported speech 'me' should change to 'her' and 'last weekend' should change to 'the previous weekend'. Option B is incorrect because in the reported speech 'me' should change to 'her' and 'last weekend' should change to 'the previous weekend'. Also, the sentence should end with a full stop signifying the completion of the sentence. Option C is incorrect because the verb in the past tense should be conjugated to the past perfect tense in the reported speech form.

Papercode: 18224, Question no: 54					
Performance	Option A	Option B	Option C	Option D	No. of Students
Section	6%	6%	44%	41%	34
National	10%	11%	30%	46%	12048

Q 18 *Which of these questions is most likely to be found in the survey mentioned in the passage?

A How often do you visit the neighbourhood store?
B How often do you buy fruits for your family?
C How much food do you buy monthly?
D How much do you earn monthly?

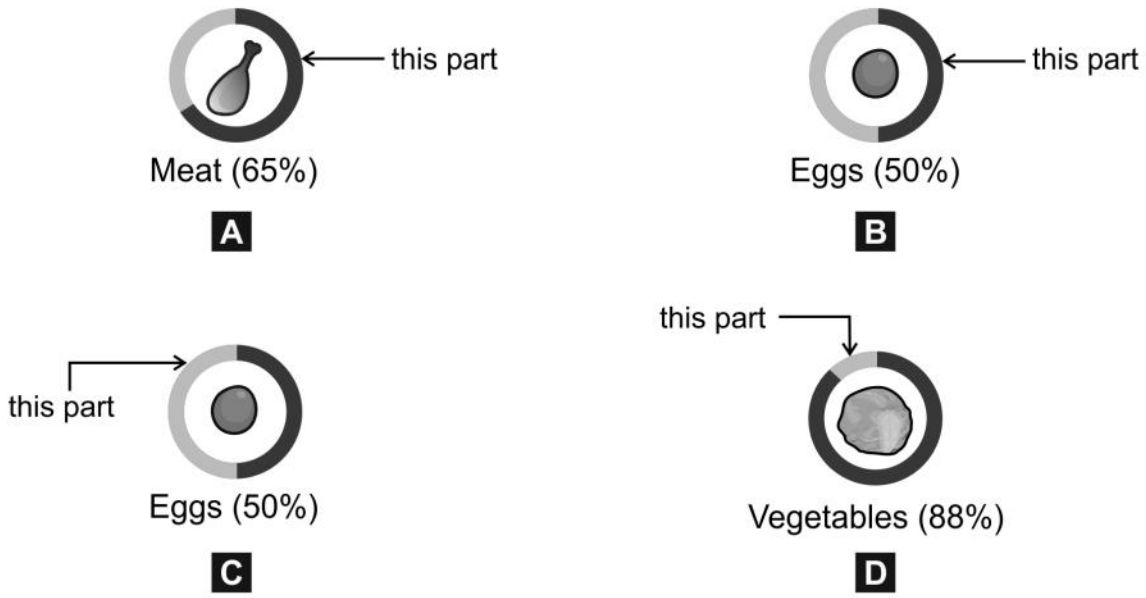
This question tests students' ability to infer which question might have been asked in the survey to arrive at the data that the infographic represents. The passage has information about what people consume, where they buy their food from, and a split of food consumption between the richest and poorest households which have been defined based on how much income they earn on a monthly basis. Therefore, the correct answer would contain questions related to any of these data points. Students who have selected option D as the answer have made the connection between the category of the richest and poorest households and the question that might have been posed in the survey to get this information. Students who have selected option C as the answer have misunderstood the fact that the infographic shows which food item people consume on a monthly basis, and not the amount of food they consume on a monthly basis. Students who have selected option A have a similar misunderstanding that students have exhibited in selection of option C: the data on where people buy their food from only states the source of their consumption and not how frequently they visit these sources in a month. Students who have selected option B may have misunderstood the data point about the percentage of each household that purchases fruits in a month: the data does not discuss how frequently the households buy fruits, but rather how many of the richest and poorest households buy fruits on a monthly basis (which would have been a 'yes' or 'no' question in the survey).

Papercode: 18224, Question no: 18					
Performance	Option A	Option B	Option C	Option D	No. of Students
Section	32%	6%	41%	21%	34
National	19%	15%	45%	21%	12048

** This is a passage based question. Please refer to the ASSET question paper for the passage.*

Q 20 * *Sitara's family is strictly vegetarian, that is they purchase only vegetables, rice, ragi, and fruits.*

Which of these marked categories would they fall under?



This question tests students' understanding of the graphical representation of data. The infographic provides data which has been presented using the progress circle chart. Students who have correctly understood what the shaded part and the unshaded parts represent, have a core understanding of the infographic. They have selected option C as they have observed that the arrow is pointing to the unshaded part, that is, people like Sitara's family who do not eat eggs. Students who have selected option A or B as the answer may have taken a guess since the arrows clearly point to the shaded parts of meat and eggs. Students who have selected option D as the answer may not have understood the data in the infographic to realise that the arrow points to the unshaded part, that is, people who do not consume vegetables.

Papercode: 18224, Question no: 20					
Performance	Option A	Option B	Option C	Option D	No. of Students
Section	0%	3%	56%	38%	34
National	5%	5%	44%	44%	12048

** This is a passage based question. Please refer to the ASSET question paper for the passage.*

This section is crafted to aid students in practicing weaker skills. Use these in class discussions, gauge common understanding gaps, and tailor lessons. Answers and explanations are included. Employ a mix of question types to stimulate students' thinking. Here's how we've tailored the practice questions for each subject: For English, if reading comprehension is a challenge, we've provided full passages to work on. In Math, Science, and Social Studies, we've chosen questions based on areas where you've shown room for growth. Hindi practice focuses on non-reading comprehension skills. Computational Thinking covers a variety of skills across the class.

Skill: Identifies facts and makes important connections in comprehending a passage. (48%)

WHO ARE YOU LOOKING AT?

Nicholas Bakalar-New York Times News Service

It's almost amazing how some people manage to walk into any room and almost own it! "Power, popularity, adoration - **call it what you want** - but the way people think of you is an important element when you decide to do some self analysis," says Allina Singh, a practising psychologist.

Get ready for some psycho-babble that might seem confusing at first "People react to you in a certain way. The way they react to you depends on the way they perceive you. The interesting part though, is that their perception of you is based on the way you project yourself! And of course, finally the way you feel about yourself is a combination of common reactions you get from people. I know it is confusing, but it's a full circle that moves between you, your projection, people's perception and what you finally derive from what people think of you," Singh tries to explain.

If you're scratching your head wondering what this means, the basic thrust of the entire self image versus people's perception theory is that it comes to a full circle. "That's why it's important to be someone who has high self esteem. Because this entire perception begins and ends at you. So, if you ooze confidence people will perceive you that way. And when your confidence receives **validation** from other people, your self image will be that much stronger," says Singh.

The key lies in building up such a strong level of self confidence that you don't stop to seek validation. "The moment you become someone who does not try to please others, your self image will grow stronger and stronger. Because then you don't judge yourself by the way people react to you. In fact if anything at all, you reverse the process. And that's the beauty of it all. When you try to please people, you'll end up being upset. And you can't possibly please everyone you meet. The idea is to do what you think is right, and the correct people will never miss the level-headedness of yours," sums up Singh.

Q 1 What is the overall message of this passage?

A It is not important to analyse ourselves and understand our strengths and weaknesses.
B It is necessary to have confidence in ourselves to influence others' feelings towards us.
C It is absolutely necessary to please others and make them feel good about us.
D It is necessary to understand what others feel about us and then act on it.

Explanation:

B: Almost every paragraph conveys the need for self confidence, how to build that and the effect of that on others. So that becomes the overall message of the passage, which is: It is necessary to have confidence in ourselves to influence others' feelings towards us . Option D (It is necessary to understand what others feel about us and then act on it .) is not the answer as it only talks of what is needed when dealing with others but does not touch upon the development of self confidence and the need for it at all.

Q 2 What does the author want to convey by saying 'call it what you want' in the second sentence?

A People use many words which are misleading and often do not convey what is intended.
B The author disagrees with the different words that people use in the context mentioned.
C The words mentioned have different meanings and hence cannot be used interchangeably.
D The name we give to what the author is talking about is not as important as the thing itself.

Explanation:

D: The author uses the words, "power, popularity,adoration" to describe the image of a person as he enters the room and captures the attention of all present. But the author also adds that the way people think of that person is more important for self analysis than just giving names to that self image. Only D conveys that meaning. In Option A, we find that words that people attach to others may not necessarily mean what they stand for and can actually mislead people about themselves. But we know for sure that in the author's view, people would need to analyse themselves and take care of the image they project rather than just adding names to that image. Therefore A is wrong.

Q 3 What are the author's views on the way our perceptions and people's perceptions affect our image?

A Our projection influences people's perceptions and their behaviour towards us influences our self confidence.
B People's perceptions about us influence our projection and that in turn influences how they feel about us.
C Since the process goes through a cycle, it is not possible to arrive at a particular order about how things happen.
D There is a particular order in which things happen but the author does not feel the necessity to discuss it.

Explanation:

A: The author feels that our behaviour in different situations shows certain characteristics which are perceived by people who interact with us. These influence their communcation with us. If the interactions are good and positive they help us become self-confident. That makes A correct. In Option B, we come to know the way we think about ourselves makes others react in certain ways according to their feelings and that in turn makes people form opinions about us. But we know that this is not what the author really says.We know that when we come to know wrong things about ourselves, based on others' opinions, we tend to correct them to improve our self image.

Q 4 Which of the following sentences conveys the idea that people's perceptions are important?

A And of course, finally the way you feel about yourself is a combination of common reactions you get from people.
B That's why it's important to be someone who has high self esteem. Because this entire perception begins and ends at you.
C The idea is to do what you think is right, and the correct people will never miss the level-headedness of yours.
D The moment you become someone who does not try to please others, your self image will grow stronger and stronger.

Explanation:

A: The second paragraph says that the way we behave sends out messages that influence the way people see us, judge us and then interact with us. This in turn affects the way we feel about this judgement, correct ourselves where needed and then behave differently, in a more desirable way. Hence A is correct. Option B is wrong because it does not focus on people's perceptions but talks about one's own self esteem and perception of oneself and the possible effect of one's actions alone. Option C is also wrong because it talks of only one's own feelings of what is right which is expected to project a level-headedness, rather than bother about people's perceptions.

Q 5 What does the word 'level-headedness' indicate to you?

A to hold one's head high and walk with confidence
B to treat everyone as equal and to try to please them
C to always have the freedom to do as one pleases
D to have a balanced approach and be self-assured

Explanation:

D: The expression, " level-headedness " means, " remaining rational and fully in control in difficult situations or emergencies ". In other words, it means " to have a balanced approach and be self-assured ". Though option A (to hold one's head high and walk with confidence) is partially correct, it does not include the ability to be calm and sensible. It appears to border on self confidence as a result of pride. That makes A wrong and D correct.

Q 6 In the author's opinion, which of these will happen if you try to please everyone?

A You will not be able to do it and will feel upset.
B You may please some but they will upset you.
C You may displease some and they will feel upset.
D You will surely upset yourself as well as others.

Explanation:

A: In the last paragraph, we come to know that if we try not to please others all the time, we will actually be analysing and judging ourselves critically, based on how we ourselves perceive others' reactions to our behaviour. At that time we are actually sifting out undesirable characteristics and adopting more effective mannerisms. On the contrary, if we are all the time trying to please others, we are bound to lose our own individuality, become dependent on others as well as become incapable of handling situations or people. There would come a time when we cannot do this and would get upset with others as well as ourselves. So A is the correct answer. The author does not really say this line, "You may please some but they will upset you ." Therefore B cannot be the answer.

Notes
