Dear Social Studies Teacher,

Congratulations on receiving your students' ASSET test results!

ASSET helps us understand where your students excel and where they might need more support.

Let's celebrate the strengths your students have shown in Social Studies are:

Analyzing geographic information
Knowledge and understanding of historical developments

Great job nurturing these talents!

Now, let's look at areas where we can help them grow even more. Here's where they can improve in Social Studies :

Knowledge and understanding of physical and human geography
Knowledge and understanding of governance and civic engagement

To assist you in this journey, we've created a special booklet. It's designed to focus on the questions/ skills that need a little boost. The booklet provides insights into each student's progress and highlights questions that sparked interest or posed a challenge.

Take your time going through the analysis to understand how each student is doing. You'll find different sections in the booklet to spot learning gaps and dive into specific questions that need attention. Your students have personalized booklets, called Student MyBooks, too. These are tailored to their needs, giving them a glimpse into the areas where they can practice more.

Feel free to use these resources in class, and let us know how it goes. We're here to help and learn from your experience. Share your thoughts with us at info@ei.study.As you guide your students through their learning journey, you're helping them become even better. Best of luck!

The Bird's Eye View shows a comparison of the performance of your students with the national average performance.

Your class 5 A, has performed better than the national average in the Social Studies ASSET paper this year.

Class 5	Social Studies	No. of students
5A (Your Class)	110%	34
5B	113%	32
5C	111%	32
All sections combined	111%	98

Performance as a percentage of National Average

Above Average(>105%) Below Average(<95%) Within Average(95% to 105%)

National average is taken as 100%. The value in the table indicate performance as compared to the national average.**E.g.** For a class average of 520 and overall average as 500, overall benchmarking %= (520/500)*100 = 104%. 95% to 105% is treated as similar to national average performance.Performance greater than 105% and below 95% is considered as performance above and below the national average range respectively.

Performance Data

Comparison of section average and best performance with all schools in the country.

Comparison of performance of students of the current batch with the previous batch:

The following graph compares the performance of your current batch of students against the previous batch. The horizontal bars in the graph show how students of your class have fared against the national average in each skill across two years.

The thick black vertical line in the centre marks the national average.For example, a bar towards the right would mean that students performed higher than the national average that year in the particular skill.

This table shows how your students' performance compares to the overall school performance and the national average (all other schools in India). The skills with a '*' in the first column, if any, are those in which your students have performed better than the national average.

From the questions that students across the country have found the most difficult, we have chosen a few to highlight potential misconceptions that students might have. For each question, we have given a break-up (in percentage form) of the number of students choosing a particular option. This has been done both for the section of your school and all the students nationally. Compare these to find out how your students have performed.

We have highlighted in light grey the correct option and in dark grey the most common wrong answer, and provided an explanation of why students are choosing the most common wrong option. It is recommended that you discuss these questions with the students to uncover students' rationale in choosing the most common wrong option. (Please refer to the ASSET paper for the complete text of these questions.)

Q 22 Which of the following statements is TRUE?

A The voting age is different in different states of India.
B Anyone over the age of 18 can vote directly to elect the President of India.
C In India, it is a fundamental right of all citizens to carry weapons like guns for their own protection.
D People of minority religions have the same fundamental rights as people of the majority religion in India.

This question was designed to test students' understanding of issues related TO citizenship. The most common wrong answer indicates that students are NOT aware of the fact that IN India the citizens cannot vote TO directly elect the President i.e. the President IS indirectly elected. Teachers should familiarise students WITH different government heads AND make students understand which heads the citizens of India directly elect.

Papercode: 45224, Question no: 22

Q 27 Shown here is a water harvesting structure called *beri* used in the region of the Thar desert.

What is its purpose MOST LIKELY to be?

A for daily household needs
B for the irrigation of rice fields
C for linking rivers that flow through the desert
D for draining out excess water during the monsoon

The question was designed TO test the understanding of desert environment. Though 31% of students have answered correctly, the answering pattern shows that students are answering randomly. It IS recommend that teachers should USE more audio-visual aids ON Indiaâ€™s geographical AND cultural diversity TO facilitate classroom discussions.

Q 3 Which government official is the head of the office that makes decisions related to the issues shown in this poster?

A Governor
B Chief Justice
C Chief Minister
D Municipal Commissioner

This question tests students' understanding of LOCAL governance. OPTION D IS the correct answer since the poster shows the responsibilities of a Municipal Corporation, of which the Municipal Commissioner IS the head. OPTIONS A, B AND C are incorrect because these officials are responsible AT higher levels of government, NOT the LOCAL level. Teachers can USE the websites of the LOCAL municipality OR corporation TO familiarize students WITH LOCAL governance.

This section is crafted to aid students in practicing weaker skills. Use these in class discussions, gauge common understanding gaps, and tailor lessons. Answers and explanations are included. Employ a mix of question types to stimulate students' thinking. Here's how we've tailored the practice questions for each subject: For English, if reading comprehension is a challenge, we've provided full passages to work on. In Math, Science, and Social Studies, we've chosen questions based on areas where you've shown room for growth. Hindi practice focuses on non-reading comprehension skills. Computational Thinking covers a variety of skills across the class.

Skill: Knowledge and understanding of physical and human geography (44%)

Q 1 In which of the following states is sea food a major industry?

A Uttar Pradesh **B** Madhya Pradesh **C** Gujarat **D** Punjab

Explanation:

C: Sea food is any sea animal or plant that is served as food and eaten by humans. Of these four states, Gujarat is the only one that has a coastline and therefore can support sea food as a major industry.

Q 2 The image here shows a method of fishing known as 'trawling'. It is used by fishermen in Kerala. A large number of fish are caught by fisherman using this method. But the trawling method can also be harmful to the environment.

In what way could it be harmful?

A It causes more destruction when floods occur.
B The fish caught in this way is not very fresh.
C It also accidentally kills other sea creatures.
D Too many fish escape from the holes in the net.

Explanation:

C: The trawling method does not impact floods or the freshness of the fish caught, and the fish cannot escape from the holes in the net. As seen from the image, this method can also kill other creatures that get caught in the web.

Q 3 The Dragon Dance is the traditional dance of one of India's NEIGHBOURING countries. The people of this country believe that dragons bring good luck.

Which of the following countries is it?

A China **B** Japan **C** Korea **D** Vietnam

Explanation:

A: This is a traditional dance from China which is one of India's neighbouring countries. Japan, Korea and Vietnam are not neighbouring countries of India.

A Dhaka **B** Kathmandu **C** Shillong **D** Colombo

Explanation:

A: Dhaka is the capital of Bangladesh so this letter would have been sent from Bangladesh.

Skill: Knowledge and understanding of governance and civic engagement (53%)

Q 1 If you want to send a letter or a parcel to a place very fast, you can use the 'Speed Post' services provided by the postal department of India. These are some of the places where this service is available: Agartala, Allahabad, Bangalore, Bareilly, Ghaziabad, Lucknow, Shimla, Pondicherry From this list, we can say that Speed Post is available only in places

A where less than 10,000 people live.
B situated near airports and major railway stations.
C which are located along the border of India.
D where there are no other means of communication.

Explanation:

B: Are all these places located along the border of India? Is it possible that they don't have any other means of communication? Bangalore and Lucknow are major cities with large populations. Proper infrastructure is required to make it possible to send and deliver post fast and therefore places where Speed Post is available would have to be near airports and major railway stations.

Q 3 Mary, a 21 year old woman, is a British citizen living in Mumbai for the past one year. She wants to open a savings account in a nationalised bank. The bank authority has asked her to submit a proof of identity with a photo issued either by the Government of India or the Government of Maharashtra. Which of these can Mary produce before the bank authority?

A passport
B driving licence
C voter identity card
D her school leaving certificate

Explanation:

B: Mary is not a citizen of India and so would not have an Indian passport or voter identity card. She is 21, so her school leaving certificate would be from Britain, not issued by the Government of India or Maharashtra. However, she would be able to get a driving license in India, which she would be able to use as proof of identity to open a bank account.
